### **ABOUT BIRJHORA KANYA MAHAVIDYALAYA**

Welcome to Birjhora Kanya Mahavidyalaya, Birjhora Kanya Mahavidyalaya, Bongaigaon, a premier institute of higher education for women in Lower Assam, was established in the year 1993. The initial objectives of establishing this institution were to disseminate knowledge & skill to the women of nearby areas of Bongaigaon district. Located at the heart of the Bongaigaon town, the college is very well connected both by road and rail communication. An institution of higher education solely for women was a long felt need of the region. This need brought together a likeminded group of Philanthropists led by Mr. Phani Bhushan Choudhury, MLA of Bongaigaon and sprouted a dream by the name of Birjhora Kanya Mahavidyalaya. Thus, the college first started its journey with just 50 students and 7 faculty members. But with excellence with more than 800 students and 34 faculty members. Initially the college was started only with the Higher Secondary stage, but subsequently it started the undergraduate courses (B.A) in 1995. The college was accorded affiliation by Gauhati University and recognized by the UGC under sections 2 (1) and 12 (B) of the UGC act. At present the college offers UG courses in Arts both honours & regular. Apart from this the college also have study centres of KKHSOU & IDOL which offers various UG and PG courses through distance mode. Birjhora Kanya Mahavidyalaya provides a unique and ideal learning atmosphere to the students for their all round development. Apart from scholastic activities the college gives equal importance to the co-scholastics activities, to help the students to develop as an individual with integrity, emotionally and mentally harmonious, physically capable as well as socially and culturally educated. With a team of competent faculty members, the college is committed to empower the women of the region.

### **BHAGYASHREE FOUNDATION FOR ACADEMIC RESEARCH AND DEVELOPMENT**

BHAGYASHREE Foundation for Academic Research and Development is a culmination of like-minded eminent researchers who joined together to build and strengthen research across Asia, the largest continent pooling in experts from more than 50 countries. Asia is very popular for its rich heritage and culture. Though having such credentials there still exists a gap in practical application of the results. This techno-friendly world has opened up ample opportunities for connecting researchers of the same science. In the recent two decades, cross-border research collaboration has doubled up. The techno-progressive culture has facilitated researchers to expand their horizons by connecting online. The intense motivation drive behind this intellectual gathering is promoting research across Asia. This will be a research replica platform where research conducted in one country can be conducted with necessary adaptation in other countries of Asia through the members of this Association. The research works will gain wide recognition and authenticity for their country-wise interpretation, which will provide multifaceted credibility. This platform will also serve as a channel in bridging young career-seeking professionals with experts of that field. This firm aims to include societal responsibility among researchers of Asia, converting the lab results as field applications. This association facilitates confidential research networking, ruling out research barriers.
